NAEGI COIN WHITE PAPER

Version: 1.0

Last Update: Feb 10, 2025

 **NAEGI POKER PROJECT**

NAEGI POKER PLATFORM

WHITEPAPER

Annotation

"The document covers the NAEGI POKER platform and its exclusive TOKEN, NAEGI COIN. This document introduces the major challenges facing the modern gambling industry and the innovative approach proposed by NAEGI POKER project to solve them. It aims to explain the features of NAEGI COIN, the technical structure based on the TON blockchain, and the future development direction of the NAEGI POKER platform. It also includes information on security, legal compliance, and the overall project roadmap."

Introduction

The gaming industry is facing a period of significant change and innovation due to the rapid development of digital technology and the advent of the cryptocurrency era. With the increasing interest in finance and the continuous development of blockchain technology, the gambling entertainment sector is facing new opportunities and challenges. NAEGI POKER is a project born to innovate the industry in this environment.

1 Main Information

1.1 About the Project

NAEGI POKER project is an innovative gaming platform designed based on TON blockchain technology, providing a differentiated gambling experience.

NAEGI POKER is a TON-based WEB3 poker game where in-game payments are made with Jetton and withdrawal fee is paid with TON COIN.

The platform aims to solve common trust, security, and regulatory issues in the gambling industry through innovative features such as decentralized architecture, transparent reward system, and integration with Telegram messenger. NAEGI POKER aims to establish itself as a leading platform in the cryptocurrency-based gambling market, providing the best gaming experience based on excellent security and user satisfaction.

1.2. What makes the project unique?

NAEGI POKER project stands out among other gaming platforms due to several key unique features:

- **Utilization of Blockchain Technology:** NAEGI POKER is designed based on cutting-edge blockchain technology, enhancing transparency and security of the game process and providing a decentralized platform.
- **Proprietary Token NAEG COIN:** NAEGI POKER introduces its own cryptocurrency token, NAEGI COIN, providing players with a convenient and secure means to participate in gambling activities and receive rewards.
- **Integration with Telegram:** NAEGI POKER project is seamlessly integrated into the Telegram messenger, making it accessible to a vast audience of users.
- **Addressing Security and Trust Issues:** NAEGI POKER tackles the existing lack of trust within the gambling entertainment industry by offering a secure and fair gaming environment built on blockchain technology.

These factors make NAEGI POKER a unique project that aims to revolutionize the gambling industry.

1.3. Project History

NAEGI POKER with TON was launched in February, 2025, by a team with extensive experience in iGaming. The idea behind creating NAEGI POKER stemmed from the desire to address existing issues in the gambling industry and provide players with new opportunities. The team's objective was to create a platform that would bridge the worlds of cryptocurrency and gambling entertainment, ensuring security, transparency, and enjoyable gameplay.

Since the project's launch, the NAEGI POKER team has been striving for exceptional outcomes. One of the key milestones was the implementation of their proprietary cryptocurrency token, NAEGI COIN. This token not only provides users with unique bonuses during gameplay but also serves as a real economic value and farming mechanism.

The project's team is actively planning to list the NAEGI COIN token on leading cryptocurrency exchanges to ensure easy access for a wide audience. One of the most ambitious plans of the NAEGI POKER team is to open up the market to new projects among the vast user base of the Telegram messenger, which boasts over 900 million users. This step will create new opportunities and dynamically propel the gambling industry forward.

NAEGI POKER project started its journey as an innovative idea and rapidly evolved into a unique gaming platform, aiming to become a key player in the world of cryptocurrency gambling entertainment.

2 Technical Characteristics of NAEGI COIN

2.1 Technology

NAEGI POKER and its ecosystem are closely intertwined with cutting-edge blockchain technology, which ensures transparency, security, and innovation within our gaming platform. The cornerstone of our ecosystem is NAEGI COIN as JETTON standard, built on the TON blockchain — The Open Network.

- ***TON: The Revolutionary Blockchain***

TON is a next-generation blockchain that has gained widespread recognition due to its unique characteristics:

- **Speed and Efficiency:** TON is designed to provide unparalleled performance and unlimited scalability, enabling NAEGI POKER to offer instant and secure transactions to our users.
- **Security:** TON ensures a high level of data security, which is particularly crucial for gaming platforms. All transactions and data on the NAEGI POKER platform are securely protected through the use of cryptographic algorithms.
- **Decentralization:** TON technology provides NAEGI POKER with a decentralized environment, ensuring transparency in the gaming process and eliminating any central authority control over the platform.

2.2 Use Cases

NAEGI COIN is not merely a digital currency; it represents a pivotal element of the ecosystem. NAEGI COIN can be utilized for several purposes:

- ***To Place Bets:*** Users utilize NAEGI COIN as a unified in-game currency to participate in games on the platform.
- ***For Rewards:*** This project provides blockchain technology and a transparent affiliate reward system with NAEGI COIN playing a central role.
- ***For Participation in Tournaments and Promotions:*** NAEGI COIN will serve as the main prizes in upcoming events and promotions.

NAEGI COIN will enable transparency and efficiency across all facets of the gaming experience on NAEGI POKER. Thanks to the TON blockchain, the platform can deliver unique, reliable, and engaging services for players.

All of these elements make NAEGI POKER a secure and innovative cryptocurrency gaming platform.

2.3 Development Plans

NAEGI POKER team sets the most ambitious goals for project development. We are committed to achieving long-term success and further expanding our ecosystem. Below are the key plans for the near future:

1. Focus on Telegram market

Telegram messenger boasts a huge user base of over 900 million users. We recognize the potential for developing new gaming projects and expanding the audience. Our team plans to actively work on integrating and promoting NAEGI POKER within Telegram to attract new players and establish a significant position within this ecosystem.

2. Listing on Major Cryptocurrency Exchanges

We plan to list NAEGI COIN on major decentralized exchanges (DEX). This move will not only facilitate easy access to our token for a wide audience but also underscore our commitment to creating a viable and liquid cryptocurrency.

All of NAEGI POKER' plans are geared towards creating a unique and progressive platform. We take pride in our team and hold honesty, transparency, and innovative thinking as our core values. Our aim is to fulfill the needs of our users and continue evolving to remain leaders in the world of online gaming and cryptocurrency entertainment.

3 NAEGI COIN

3.1 About NAEGI COIN

First of all, we issued **NAEGI TEST COIN** based on **TON testnet** so that users can experience and become familiar with NAEGI POKER and TON mechanisms within the TON ecosystem.

NAEGI TEST COIN is a blockchain-based utility token designed to enhance the gaming experience of NAEGI POKER while enabling external transactions and trades. It is built on the TON blockchain with the Jetton standard and 1,000,000,000,000 (1 trillion) NAEGI TEST COIN have been issued.

Main Features:

- **Blockchain:** Jetton Standard based on TON Testnet
- **Management:** It is managed through the master wallet of the NAEGI COIN issuer and tracks each user's holding status.
- **Main Purpose:** Game utilities and External transactions.

3.2 Why NAEGI COIN?

The NAEGI COIN ecosystem enables:

- Smooth gaming experience through purchasing game chips as a currency within NAEGI POKER.
- Accessibility to decentralized trading through DEX.
- Integrated with the TON blockchain for transparency and security.

3.3 When and where can it be used?

Usage Scenarios:

- **Game Chip Conversion:**
 - **Exchange Rate:** 1 NAEGI COIN = 100,000 CHIPS
 - **GAME CHIP:** Used only within NAEGI POKER.
 - **USER:** Users can exchange unused game CHIPS to NAEGI COIN.
- **External Trade:**

- Trading NAEGI COIN on decentralized exchanges (DEX)
- Exchange NAEGI COIN to TON COIN
- P2P trade between users
- **Rewards and Bonuses:**
 - **New User Bonus:** Users will receive 100,000 CHIPS upon new join.
 - **Daily Bonus:** 10,000 CHIPS are given every day.
 - **Other Bonuses:** A strategically designed reward system will be introduced sequentially, including time bonuses that encourage participation during specific time periods and social activity bonuses that enhance interaction between users.

3.4 Who manages NAEGI COIN?

The system divides management responsibilities as follows:

- **NAEGI POKER Master Wallet:**
 - Control and track all NAEGI COIN.
 - Execute deposits and withdrawals within the NAEGI POKER platform.
- **USER Wallet:**
 - **NAEGI POKER Wallet:** Used for NAEGI COIN transfers and external DEX transactions.
 - **External personal wallet (TON KEEPER, DEX, etc):** Used for TON COIN management such as NAEGI COIN, Withdrawal fee (TON)

3.5 How to work? (MECHANISM)

- **DEPOSIT:**
 - Users create their own personal wallets via TON Keeper or DEX.
 - Users transfer NAEGI COIN from external wallets to NAEGI POKER wallet.
 - Minimum deposit amount is 1 NAEGI COIN.
- **WITHDRAW:**
 - Users request withdrawals from their NAEGI POKER wallet to their personal TON wallet.
 - There is no minimum withdrawal amount, and the withdrawal fee is 0.2 TON.
 - The TON network fee cost is borne by the user.
- **Trading and withdrawal fees:**

- All transactions (deposits, withdrawals, transfers) are subject to TON network fees. Users must maintain enough TON COIN to cover withdrawal fees.

3.6 NAEGI TEST COIN and NAEGI COIN

- **NAEGI TEST COIN:**

- Operates on TON Testnet.
- Used to test exchange processes and verify logic.
- Not used for actual transactions.

- **NAEGI COIN:**

- Operates on TON Mainnet.
- Supports in-game payments, real user transactions (P2P), DEX transactions, and withdrawal requests.

4 Challenges of the Gambling Industry and Their Solutions

4.1 Lack of Decentralization and Transparency in the Affiliate System

Among the main aspects of this issue, the following can be highlighted:

- **Player Distrust:** In the absence of a decentralized approach and transparency, players may doubt the fairness of games and the integrity of payouts. This could erode trust in the casino and lead to a decrease in the number of players.
- **Potential for Manipulation:** If the affiliate system lacks transparency and cannot be deemed decentralized, casino operators could manipulate data regarding commissions and payouts to affiliates. This could lead to unfair payments and subsequent conflicts.
- **Investment Loss:** Investors who put their funds into crypto casinos might face the risk of losing their investments due to insufficient awareness and lack of transparency in financial operations and commissions.
- **Loss of Affiliates:** If affiliates cannot trust the payout system, they may start shifting to competitors, which ultimately leads to the loss of crucial marketing partners.
- **Negative Impact on Reputation:** The implementation of unfair schemes towards partners and players, along with the lack of transparency in the affiliate system, can attract negative attention from regulators and the public. Ultimately, this could significantly damage the casino's reputation.
- **Loss of Competitiveness:** In a market where transparency and decentralization are increasingly crucial, projects that do not meet modern requirements will lose competitiveness to other players in the market.

Hence, we are implementing blockchain and smart contract technologies to ensure decentralization and transparency in the affiliate system, addressing these issues and enhancing trust among players, investors, and webmasters.

4.2 High Fees for Payments and Transfers

With the implemented P2P system and cryptocurrency acquisition, players can deposit cryptocurrencies without additional fees from payment systems.

4.3 Extended Transaction Processing Times

Lengthy processing times for accepting payments in crypto casinos are unacceptable for players, as they expect an instantaneous system response when making deposits and withdrawals. Our solution to this issue encompasses the following measures:

- Utilizing Fast Blockchains. For instance, the Ethereum blockchain has high fees and lengthy confirmation times for fund transfers, whereas the chosen blockchain, TON (The Open Network), enables rapid and more cost-effective transactions.
- Instant Deposits and Withdrawals. Instant deposits and withdrawals for small amounts using Off-Chain transactions. This allows players to instantly join the game and later withdraw their winnings.
- Testing and Optimization. We conduct regular testing of the transaction processing process and continually optimize it for maximum efficiency.
- Utilizing a Native Token. Our proprietary token NAEGI COIN allows for transactions with high speed and low fees during transfers.

4.4 Access Restrictions for Players from Different Countries

We understand the importance of transparency and compliance with legal requirements in the world of crypto-gambling. One of the key challenges we face is access restrictions for players from different countries.

Our solution is to fully comply with local laws and regulations in each jurisdiction where we provide our services. Compliance with legislation in this case is not only our responsibility but also a guarantee of long-term success.

We also actively utilize geolocation blocking technologies to prevent access to our platform for players from countries where our operations are restricted.

At the same time, we strive to provide our players with the best gaming experience. Therefore, within the platform, we support a variety of currencies and languages to engage players from different parts of the world.

We take pride in our efforts to ensure compliance with laws and regulations. We believe that this not only helps us protect the interests of players but also allows us to build long-term and trustworthy relationships with our audience. Our goal is to create a safe and transparent

platform for gambling entertainment, where every player can enjoy the game without fearing to violate their country's legislation.

5 Development of NAEGI Ecosystem

5.1 Partnerships with Cryptocurrency Casinos and Online Gaming Platforms

We are putting in every effort to ensure the comprehensive development of NAEGI POKER Platform ecosystem by establishing strategic partnerships with other cryptocurrency casinos and online gaming platforms. Our partners share our values, and together, we create numerous opportunities for our users. This includes expanding the range of games, increasing the variety of gaming options for our clients, and further collaborative integrations between platforms.

5.2 User Attraction and Community Building

We believe that the key to further successful ecosystem development lies in actively attracting new users and building an engaged community. We organize numerous events, promotions, and contests to capture the attention of new users and encourage the participation of our existing clients. We take pride in our community and aim to make it even stronger and more interconnected.

5.3 Research and Implementation of New Features

We actively implement new features to enhance the gaming experience for our users. We listen to and analyze customer feedback, using it to improve our platform. We stay abreast of innovative technologies and seamlessly integrate them into our system to provide users with a unique and contemporary gaming experience.

Overall, our efforts to develop the NAEGI POKER ecosystem are aimed at comprehensive platform growth. Our ultimate goal is to become a leading entity in the world of crypto casinos. We offer not only innovative solutions and a wide range of games, but also cultivate a strong and interconnected community, making the platform truly unique for our users.

6 Security and Regulation

NAEGI POKER strives to ensure security and compliance with legal regulations in the world of crypto-casinos. Our platform offers players safety and stability while adhering to all legislative requirements.

6.1 Protection against fraud and hacking

We pay utmost attention to the security of our NAEGI POKER platform. Our users can rest assured that their funds and personal data are well protected. We employ cutting-edge technologies and the most effective cybersecurity algorithms to prevent fraud and hacking.

Our security measures encompass multiple levels of authentication and data encryption. We also continually monitor user activity on our platform to detect and respond to potential threats. Our dedicated security team comprises professionals working to make NAEGI POKER one of the safest places for cryptocurrency-based gaming entertainment worldwide.

6.2 Our approach to regulatory compliance in various jurisdictions.

We adhere to a strict policy of legal compliance within the various jurisdictions where we provide our services. Our goal is not only to offer an engaging gaming experience but to do so on a lawful basis. We collaborate with local regulators, following their recommendations and requirements. This aspect is of utmost importance to us as it helps establish long-term and trustworthy relationships with both users and regulators.

Conclusion

At NAEGI POKER, we are creating a unique online gaming platform that bridges the world of traditional gambling and innovative cryptocurrencies. Our mission is to establish a secure and open entertainment platform where users can enjoy a plethora of games, take part in exciting tournaments, and feel like an integral part of an active community.

We actively address security and regulatory concerns, putting in all efforts to prevent fraud and safeguard the data of our partners and users. We closely monitor legislative developments across different countries and collaborate with local regulators to comply with laws and provide services up to the highest standards.

Our platform is in constant evolution through partnerships, the active acquisition of new users, and the introduction of new features. We take pride in crafting a unique ecosystem that blends engaging gameplay, transparency, technological innovation, and meticulous legal adherence.

Our efforts are dedicated to creating the ultimate ecosystem for gambling enthusiasts, and we are delighted to share this experience with our audience.
